

PROFESSIONAL SUMMARY

Molecular Biotechnology Engineer from Universidad de Chile with published biomedical research and experience spanning genomic bioinformatics, clinical research documentation, biomaterials and microbiology. Two peer reviewed articles and one genomics preprint. Experience in scientific writing across multidisciplinary projects. Multinational MedTech experience at Johnson & Johnson in compliance, HCP education, CRM based engagement tracking and cross functional coordination. Advanced English, native Spanish and GCP training.

PROFESSIONAL EXPERIENCE

Professional Education Specialist · Johnson & Johnson MedTech, Santiago, Chile 2025 to 2026

- Coordinated **ten national medical education programs** across orthopaedic specialties for approximately **260 HCPs**, including surgeons, residents, operating room nurses and KOL faculty, under global HCC and HCBI compliance frameworks.
- Collaborated with academic leaders, KOL faculty and internal teams to plan educational initiatives, aligning program logistics, learning objectives and compliance requirements.
- Selected HCP participants using targeting and segmentation data, then tracked participation, engagement and KPIs in **Salesforce CRM and Power BI** to support program planning and follow up.
- Coordinated educational meeting logistics and compliance documentation, including speaker agreements, agendas, attendee lists and program reports across approval processes.
- Designed and implemented a structured **HCP field feedback and product usage reporting process** that was adopted as a local standard.
- Partnered with academic leaders to develop the Future Leaders curriculum, defining progression, learning objectives, simulation activities and digital learning components while communicating in English with regional teams.

Clinical Research Intern, Research Unit · Clínica Indisa, Santiago, Chile 2024 to 2025

- Supported the Research Unit Coordinator and reviewed clinical research proposals for ethical and regulatory standards before ethics committee submission.
- Applied GCP training and the Diploma in Clinical Study Management to research documentation review.

SCIENTIFIC RESEARCH

Research Assistant, Genomic Bioinformatics · DiGenoma Lab, Universidad de O'Higgins 2024 to 2025

Analyzed large genomic datasets and developed reproducible analysis pipelines across cancer and SARS-CoV-2 projects, including preprocessing, variant calling and interpretation with multidisciplinary teams. Python, R, SQL and Bash.

SCIENTIFIC RESEARCH

Research Assistant, Biomaterials · BiopRel, Universidad de los Andes2023 to 2024

Contributed to biomaterials research on tunable GelMA hydrogels using mammalian and non mammalian gelatins, analyzed compressive data and coauthored the peer reviewed article published in *Gels* in 2026.

Research Assistant · IIBM, Pontificia Universidad Católica de Chile2021 to 2023

Bioremediation, Microbiology and Biomedical Image Analysis

Managed the biological workstream of an arsenic bioremediation project, including experimental planning, bioreactor operation and image analysis, and coauthored a peer reviewed article in *Frontiers in Microbiology*.

PUBLICATIONS

- Membrane vesicles in *Acidithiobacillia* class extreme acidophiles: influence on collective behaviors of 'Fervidacidithiobacillus caldus'. *Frontiers in Microbiology*, 2024.
- Designing Tunable GelMA Hydrogels by Integrating Mammalian and Non-Mammalian Gelatins. *Gels*, 2026.
- Ultra-deep sequencing reveals intra-host diversity and co-infection-driven evolution of SARS-CoV-2. *bioRxiv*, 2026.

EDUCATION AND CERTIFICATIONS

Engineer in Molecular Biotechnology		2015 to 2022	EXECUTIVE EDUCATION	
Universidad de Chile			NIDA GCP	2024
Diploma in Clinical Study Management		2024	ACROCHI GCP	2024
Pontificia Universidad Católica de Chile			WHO Good Practices for Clinical Trials, participation	2026
LANGUAGES			Human Subjects Research, CITI	2024
Spanish		Native	Drug Development Product Management Specialization, UC San Diego	2026
English		C1/C2, Advanced	REFERENCES	
German		B1+, DAAD	Available upon request
